Snow Clearing 2024

The RM has changed its policy with respect to snow removal of private driveways. We now require an annual non-refundable fee of **\$350** to be received upfront into the office prior to snow removal on private driveways. Waivers are still required prior to snow removal from your driveway. Driveways will be done when the grader is at your driveway doing the snow removal on the municipal road. Clearing of snow in your laneway will be done so you will have access to the municipal road (loop in and out). Custom work rates will apply if grader operator(s) are called out apart from regular snow removal and any additional snow clearing more than looping in and out of your private driveway. Custom work will be done once the municipal roads are cleared. Contact the office if you have any questions.
