|----------|---------------------------------------------------------|-------|
|          |                                                         |       |
|          | Clean cabs & set up graders for Cat/Finning             |       |
|          | sales rep to inspect/asses for trade value              |       |
|          |                                                         |       |
| S/6      | Clear drifts and wing back snow of TWP 450              |       |
|          | f/Hwy 40 to 3071.5 & start opening road to intersection |       |
|          | of RR 3072 where it washes out with spring runoff       |       |
|          |                                                         |       |
|          | Meet Brandt sales rep @ shop for grader appraisal       |       |
|          |                                                         |       |
|          |                                                         |       |

Comments: finish opening 450 to 3072 (it had been  
previously open to get to grain bags & had blown  
in down hill lost a channel for water to run
