

# COVID-19

## UPDATED FAMILY PRESENCE GUIDELINES FOR SHA FACILITIES

**As of June 3, 2020 visitor restrictions have been updated to reflect a revised definition to compassionate care.**

**Family members/support people are welcome for compassionate reasons only, which may include:**

- end of life care
- patients with specific challenges
- intensive/critical care
- major surgery
- maternal, postpartum, and pediatric units
- long term care residents who require the assistance of a family member or support person

As an additional level of safety, all outpatients and family members/support people will be provided with a medical grade mask to wear while in SHA homes and facilities and will be screened with a COVID-19 questionnaire and a temperature check. This is to keep everyone safe during this time.

**Under no circumstances should you visit if you have respiratory, gastric or flu-like symptoms (common cold/ diarrhea/ vomiting). We encourage you to call HealthLine 811 for access to testing if you have any of these symptoms.**

**Saskatchewan  
Health Authority**
